

45–950 mm
MAX

The true king among terrace pedestals.
The biggest. The most.

Stable support for slabs

The MAX series, thanks to its head diameter, provides the largest contact area between the slab and the pedestal. Smooth height adjustment from 45 to 350 mm is achieved with a double thread, which can be extended up to 950 mm by using additional extension rings. MAX pedestals are resistant to heavy loads and have a wide range of applications—ideal for both home terraces and the most demanding projects.

MAX-045-075

Adjustable pedestal
MAX 45-75 mm for outdoor
raised flooring

MAX-075-150
